Welcome to the Maldives

A destination of dazzling tropical beauty that offers the perfect recipe for relaxation and rejuvenation! A country of more than a thousand islands spread over 90,000 square kilometres of the Indian Ocean. Endowed with a dreamlike beauty, the Maldives welcomes you to enjoy its natural splendour and charm. For most holidaymakers, great sunny days with deep blue skies, clear lagoons with pleasing shades of blue, moonlit nights, the soothing sound of waves lapping soft white sands, the ruffle of palms and powdery white beaches are the basic ingredient for a tropical island holiday – few places offer these in greater abundance than the Maldives.

Maldives has a variety of resorts catering to the taste and budget of most travellers. All resorts are located on their own private island, making their beaches idyllically crowd-free. From Robinson Crusoe style to those offering a more conventional style, your resort is your haven from which to spend your days relaxing with a cocktail or two, diving in the spectacular ocean, or taking advantage of the spa facilities, watersports or activities the resort has to offer. Maldives is barefoot luxury at its best.

The Maldives has a hot tropical climate and the temperature remains remarkably consistent at around 30°C year round – and that's on the beach and in the water! The warm seas of the Maldives have high visibility throughout the year; with water clear enough to see the passing fish as far as fifty metres away at times. Over a thousand species of fish and other underwater creatures inhabit the Maldivian waters. Enjoy your days snorkelling, diving, deep-sea fishing or cruising at sunset.

Getting to Your Resort

International flights arrive at Male's Velana International Airport, which is on an island of its own. Transfers from the airport to your resort island are either by speedboat, seaplane or domestic flight, depending on the distance. If your resort requires a seaplane transfer, be aware that seaplanes only operate in daylight hours.

The seaplane journey is an experience in itself, as you get stunning views of the atolls - make sure you have a window seat and that you get your camera out before boarding. The seaplane will usually land next to a floating platform, from which you will be picked up by boat to be taken the remaining few metres in shore to your resort.

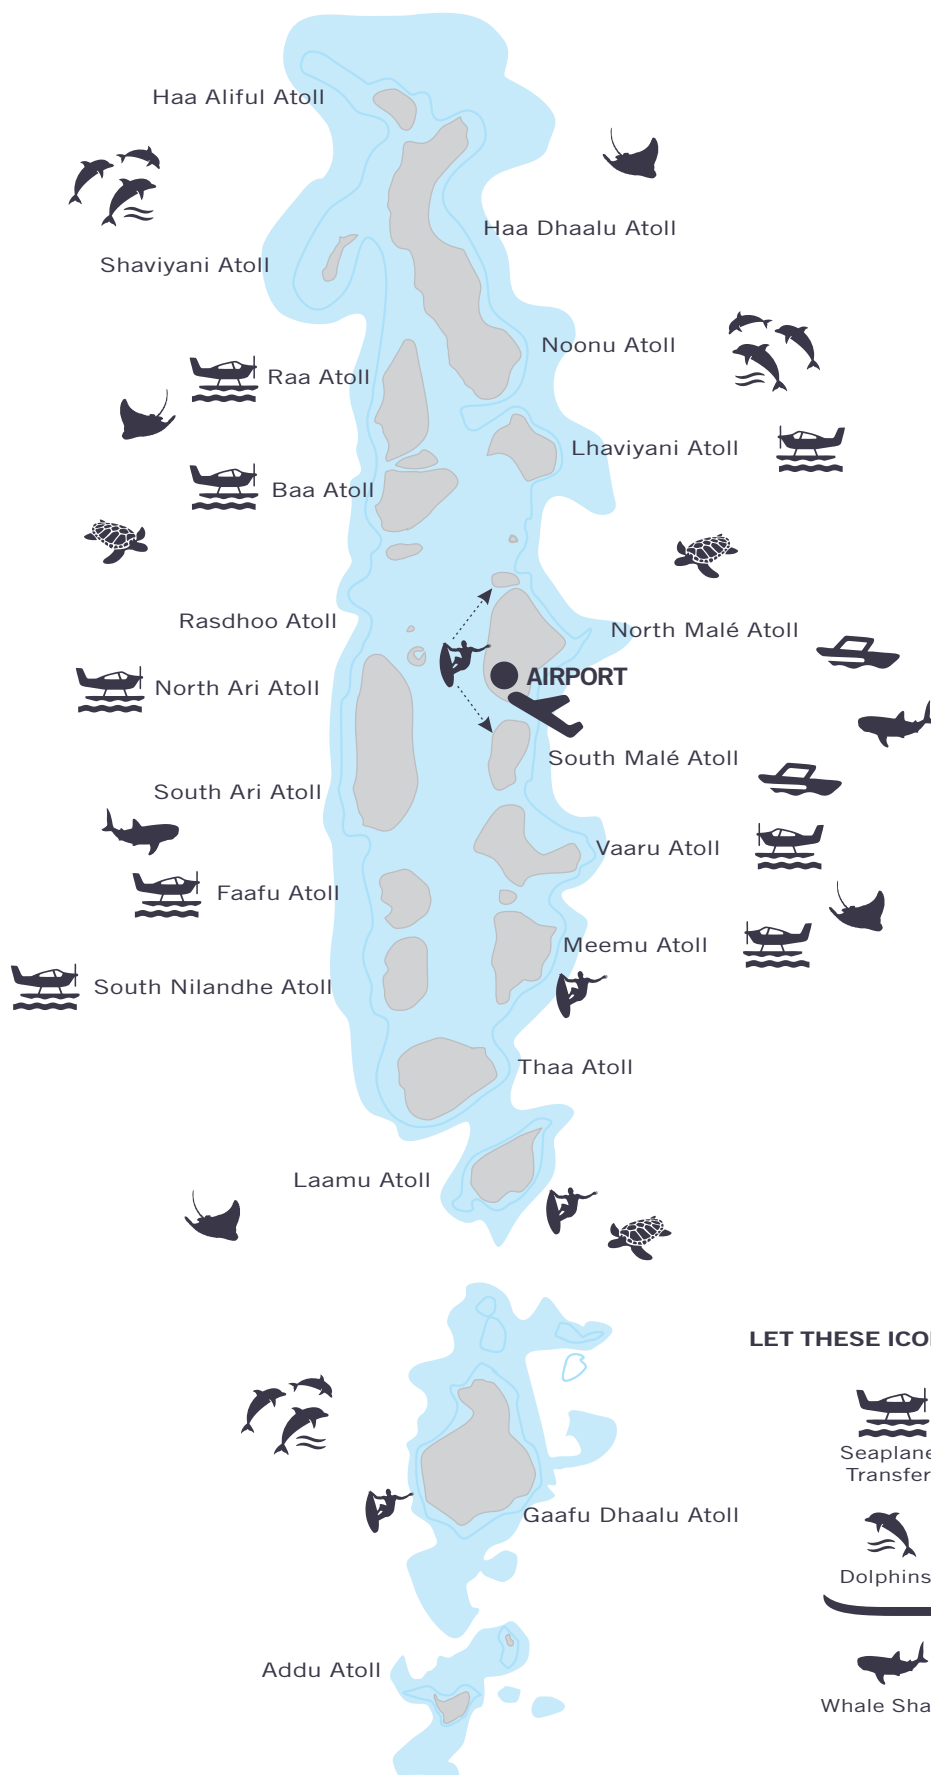

Diving

With Maldives being one of the most coral rich regions in the world, here you are spoilt for choice when it comes to diving. With over a thousand different species of coral and fish, every dive is a fascinating experience. If you are a certified diver, travel with proof of your certification and discover this miracle of nature called Maldives - a true diver's dream. If you are not certified - well there's no time like the present! Take the plunge while on holiday in the Maldives - with its shallow lagoons, the conditions are ideal for beginners.

FACTORY FACTS

- Maldives is the lowest country in the world
- 99% of Maldives is water
- The Maldives is the smallest country in Asia

AYADA MALDIVES

Multi award winning Ayada Maldives is a private island resort in Maldives' relatively unexplored Southern Gaafu Dhaalu Atoll, just 30 kilometres North of the Equator. It is a truly luxurious retreat in genuine Maldivian style.

Traditional thatched-roof Water Villas stand on stilts over the resort's peaceful lagoon, while Beach Villas offer absolute privacy amid tropical greenery alongside powder-soft palm-lined white beaches. With the exception of the Garden Villas, all Villas have private pools, a butler service and thoughtful 5 Star detailing.

Food lovers can explore the seven restaurants and bars to tantalise the taste buds. If action is your vibe, there is an array of watersports as well as scuba diving to keep you busy, or you can hit the gym, choose from one of three jogging tracks to get your heart rate up, or even learn to Zumba. On the other end of the scale for complete relaxation there is a fabulous Spa which boasts a Turkish Hammam and eight treatment Villas.

For snorkelling enthusiasts the coral reefs surrounding Ayada have barely been seen by humans so they remain pristine and virtually untouched and, for surfing fans, some of the Maldives' best surfing breaks are just a quick speedboat journey away.
